

Dear Parents/Carers,

As part of your child's DT topic this term they are learning about working with food alongside the designing and making process.

- Year 3 will be looking at bread through their unit The Great Bread Bake Off which includes evaluating existing breads and making their own.
- In Year 4, children will be learning where and how ingredients grow alongside cooking with ingredients that they could grow.
- In Year 5, children will be looking at seasonal food before learning some basic cooking techniques which they will use to create a healthy balanced meal.
- In Year 6, children will be looking at different cuisines from around the world and making pretzels and Chinese style spring rolls.

To help support this learning, during the rest of this term they will be designing, preparing and cooking foods which they will then be able to eat and evaluate their work.

If your child has any allergies, which school are aware of, then this information has already been shared and accounted for however, we would be most grateful if you could complete and return the slip below by **Friday 6th June**.

Please do not hesitate to contact us if you have any questions or queries.

Yours Sincerely,
Ms Tomlinson
KS2 Leader

Please complete the slip below and hand it to your child's class teacher.

Pupil Name: _____ Class: _____

My child **DOES NOT** have any special dietary requirements (please tick)
