

- 1** Jo uses 5 snowballs to make a snowman.

She makes 3 snowmen.

How many snowballs does she use altogether?

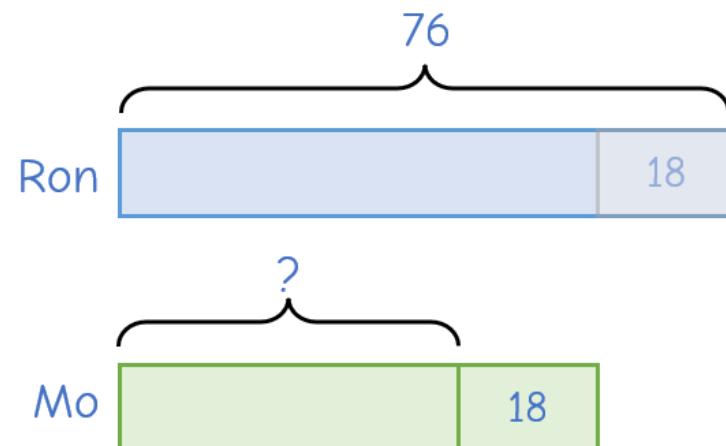

- 2** Ron has 76 pinecones.

Ron gives Mo 18 pinecones.

They now have the same number of pinecones.

How many pinecones did Mo have at the start?

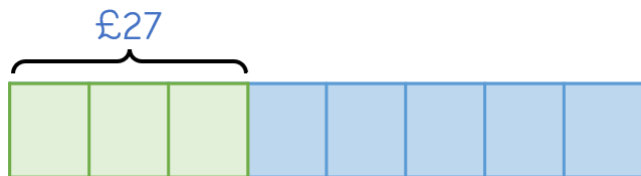

3 Rosie saves money in a piggy bank and her bank account.

- $\frac{3}{8}$ of her savings are in her piggy bank.
- She has £27 in her piggy bank.

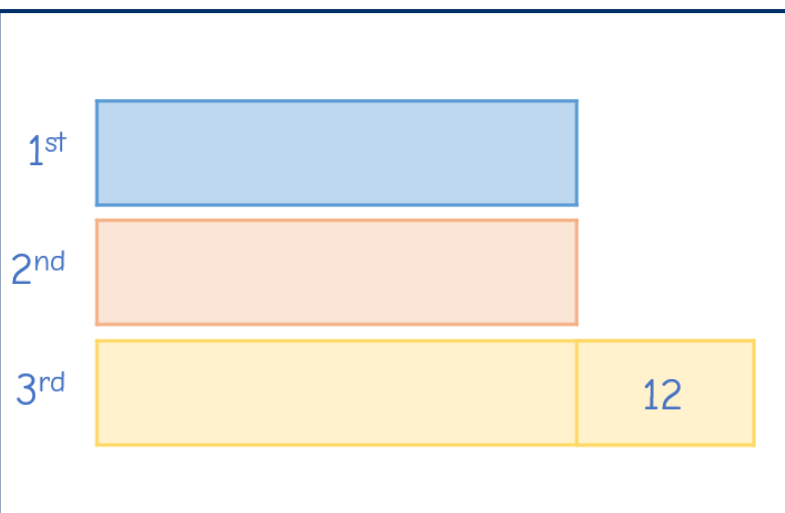

How much money has she saved altogether?

4 On a farm, reindeer live in 3 stables.

- There are the same number of reindeer in the 1st stable as the 2nd stable.
- There are 12 more reindeer in the 3rd stable than in the 1st stable.
- Some of the reindeer are moved from the 3rd stable, so that all the stables have the same number of reindeer.
- There are now 36 reindeer in each stable.

How many reindeer were in the 1st stable at the start?

5

Kim and Dexter each have some decorations.

- If Kim gives Dexter 12 decorations, Dexter will have the same number of decorations as Kim.
- If Dexter gives Kim 12 decorations, Kim will have three times as many decorations as Dexter.

How many decorations does Kim have?
